Opposition Arises To Proposal For Freeway At Lake

Organized vigorous opposition to a proposal to construct a six-lane freeway down the west side of Lake Tahoe, linking the north and south shore through one of the most esthetic areas in the world, has developed in a group which calls itself the Committee to Save the West Shore of Lake Tahoe.

One of the committee organizers is J. Max Moore, former San Francisco supervisor who charges that the freeway would only serve to link the gambling casinos.

The opposition is aimed at the state division of highways which has started the survey of the route, but which has never indicated whether or not the plan will include a bridge over Emerald Bay. The plans thus far have included the freeway from Highway 50 to Emerald Bay and from Emerald Bay to Tahoe City, plans for Emerald Bay having been avoided.

The plan of the group opposing the freeway would develop minor alignment and widening of the existing road and for construction of a two-lane landscaped parkway paralleling Highway 89 at a higher elevation. The two roads, the committee contends, will carry as much traffic as the proposed freeway and at the same time protect the beauty of the west shore. This plan will not deprive the public of use of the lake by eliminating access points and underpasses.

The freeway, the committee admits might save ten minutes of driving time from Tahoe City to Emerald Bay, but would deprive motorists of the beauties now available.

A mass meeting of protest for June 27 at 10 a. m. in the Meeks Bay Theater. The public is invited to come and express opinions.

In the meantime, the organization has established headquarters at P. O. Box 3049, Stanford, Calif. and will welcome any support or encouragement it receives.

Moore charged that there will be no view at all from a high-speed freeway "except that in 20 years you will be able to see high-rise buildings and motels along the lake because a freeway will open up commercialism of the entire shoreline."

Construction of the highway itself, the committee charges, will do the most damage with a 200-foot wide gash through the pine trees and primitive area.

Tahoe Pilot To Be In Race To Airport

The air race of the 99's, a group of all-women pilots, which will be one of the many features of the dedication of the Truckee Tahoe Airport here on June 20-21, will have more than passing local interest.

The second plane to take off from San Diego at 9 a. m. June 20, will be piloted by Mrs. Sharon Wofford,, a former local student and daughter of Mr. and Mrs. Jerry Little of Kings Beach. Mrs. Wofford, now residing at Fresno, holds a commercial pilot's license and will be flying a Commanche, solo.

The planes will land here Saturday to complete the race, pilots will remain overnight for a dinner, take part in the dedication Sunday afternoon and fly back to San Diego. The race is sponsored by Howard Fisher, base operator at the Truckee Tahoe Airport.

Mrs. Wofford is planning also to take part in the Powder Puff Derby on July 4, one of the big national races for women pilots.

Recreation Project For Children This Summer Revealed

The Truckee-Donner Park and Recreation Department is offering a summer recreation program for children. It will begin on June 15 and run until August 15. Facilities at the Truckee Elementary and Tahoe Truckee High School will be used whenever possible, Loyd Hoofard, director, announced.

The park and recreation district was formed by a vote of the people in November, 1962 at which time directors were elected. They are C. V. Osburn, Daven Morey, Dr. H. P. Tapia, William Curran and Hap Savage. This is the first year that the district has been able to offer a program because the first tax money just became available.

Hoofard was appointed as supervisor of recreation in March of this year to set up the program for this summer. Dwight Souers and Sue Scott will be employed for the summer program.

The tentative program will operate as follows for this summer:

1. Boy's Sports School: Morning session, Monday through Friday, ages 9-15 (as of June 1).

Plan Commission To Hold Meeting In Truckee June 8

The Nevada County Planning Commission will hold a regular business meeting in the new Nevada County Government Building Truckee on June 8, at 7:30 p.m.

The agenda for the meeting will include a public hearing on the use permit application of Jack F. Guzman for trailer parking on property owned by Mobil Oil Company, at the address of Mobil Oil Station, Emigrant Way and Highway 40 west.

The commission will also consider the use permit application of Harry W. Stout for a garbage dump and wrecking yard on property owned by Sierra Pacific Power Company half a mile east of Hirschdale on old Highway 40. Consideration of the application was postponed from the planning commission meeting of January 27, because the heavy snow prevented thorough inspection of the property by county and state agencies.

The public is invited to attend this meeting to observe planning commission procedure or express opinions.

Novel Decorations For Airport Program

When flying units arrive at the Truckee Tahoe Airport June 20 and 21 for the dedication of the facility here, they will be greeted with individual creations designed by Betty Kielhofer, who will head the official greeting committee during the two-day celebration.

For instance, a large sign with the 99 image in the center has been erected for the 99's, a group of women pilots who will be racing up from San Diego. It will be set out near the runway and decorated as a woman and placed in front of an airplane.

A scarecrow, over six feet tall, dressed in outlandish farmer costuhe will greet the Flying Farmers and for the California Farm Bureau Federation, the initials: CFBF will be cut from wood and placed on an old wagon wheel with the wording "Who's tending the fields?" across the wheel.

For the California Council of Aviation Association, a melting pot will hang as an old Dutch oven between two poles with the group initials carved thereon.

Other designs are in the making and Mrs. Kielhofer is seeking artifacts of the area, like a covered wagon, old stage coach and other relics to be used during the dedication. Displays of fresh trout ,a deer head, strings of lights and crepe paper will brighten the field. Just before the event, a huge "Welcome" sign in lime will be drawn on the landing strip.

Reily said Linkletter not only bought into corporation but also agreed to assist on the planning and publicity for the project.

The famous television and movie star became interested in this area when he came to Squaw Valley during the 1960 Winter Olympics. He plans to build a chalet at Twin Peaks.

Plans are being developed, according to Reily, for a year round mountain country club in the sprawling valley just south of Squaw Valley and Alpine Meadows. Facilities will include several hundred homesites with ski lifts and lodge for winter use and golf course, riding trails, swimming and boating for summer.

Spirited Election Looms Tuesday For 4 Candidates

From a local standpoint, the election Tuesday should be one of the most interesting ever held here.

Four candidates, two for each of the two contested local offices, will end weeks of campaigning when the polls close at 7 p. m. Tuesday night. They are H. G. Loehr, incumbent supervisor of the fifth Nevada County district and his opponent Ivan J. Tofft, and F. W. Wilson, incumbent judge of the judicial district court and his rival, Frank H. Snyder.

The only other county officer up for election is Judge Vernon Stoll, incumbent judge of the superior court who is unopposed.

An interesting item on the ballot, however, will be a measure submitted to the voters by Sierra Junior College seeking an override tax to provide facilities for the college. An effort to finance the facilities through a bond issue failed twice at previous elections as a two-thirds majority was needed. The present proposition requires only a simple majority.

The proposition is "Shall the proposed increase in the maximum rate from 35 cents to 55 cents, such rate to be in effect in the district for the school years 1964-65 to 1973-74, inclusive be authorized?"

There will also be interest in various other contests, including that of United States Senator in which there are a total of 12 candidates, three republicans, George Murphy, Fred Hall and Leland Kaiser. The democratic list is headed by Alan Cranston, Pierre Salinger, George McLean and Claire Engle. The latter withdrew from the race because of ill health but is expected to gather a large number of votes.

In the state senate contest, Margarette Brown Meggs, a republican, opposes Paul J. Lunardi, the democratic incumbent. Neither has party opposition for nomination.

In the state assembly race, the lone democratic candidate, Howard R. Smith will go to the general election while on the republican side there are three candidates, Eugene Chappie, Brooks M. Fiske and Harold (Hal) Welch, the latter the only local candidate in the race.

DONNER DOINGS

By VI WHITE
Phone 587-3866

The latest news that the Anthony St. Claire's have sold their lovely lake front home to Dr. and Mrs. Ben King has been met with mixed emotions. We all hate to see such a wonderful couple leave Donner, but are happy that such a nice family will be enjoying "on the lake" living too. Tony and Claudia are planning to stay through the summer, then move to Florida.

* * *

Mr. and Mrs. Roy Martin of Roseville have been fighting the late snows for a month getting in and out of their home on the south side of the lake.

Their neighbors Mr. and Mrs. John Margliano of San Mateo have moved up for the summer season. They finally dug their way into the driveway and are getting settled. John is membership chairman of the Donner Lake Property Owner's Association and is also chamber of commerce representative.

* * *

A beach clean-up is scheduled for May 30 according to DLPOA Chairman Bill Murphy. He hopes to see lots of volunteers, especially the teenagers, with rakes, shovels and muscles to clear the pine needles, cones, glass and debris. President William von Tagen has sent a letter out to all Donner Lake property owners asking their vote for or against being included in the incorporation of the city of Truckee. It would mean an increase in taxes and we are taxed higher than Truckee now, he said. Many have expressed their thoughts that when the freeway is completed Donner Lake will become even more valuable recreation spot with no need for city status.

* * *

A Queen contest will be held again this year to pick a lovely girl to be Miss Donner Lake 1964. Karen Smart, Chico State College freshman, was crowned last year at the annual water ski meet.

The contest is being conducted by the Donner Lake Volunteer Fire Department Ladies Auxiliary and letters to service organizations are being sent asking for a candidate for queen. The clubs are asked to select their representative as soon as possible so that the queen contestants can be introduced during the dedication of the Truckee Tahoe Airport June 20-21.

At their last meeting, the Auxiliary discussed several money making events and decided on having a house and cabin tour in August. The plans are to visit at least six lake homes by boat and car.

* * *

If anyone has colored slides of Donner Lake or the surrounding Nevada County area, please give them to someone in the chamber of commerce so that duplicates can be made. Mr. and Mrs. Carl Steger of Grass Valley wishes to use them at the Nevada County display at the Los Angeles County fair.

It was noticed last year at the State Fair in Sacramento, there was not one picture of Donner Lake. Let's see that there is this year.

* * *

Pete Tallant of Donner Memorial State Park had his picture in the Sacramento Bee last Sunday proudly holding the 11-pound rainbow trout he caught in Lake Tahoe with a live minnow. The size six hook had three twists in it, evidence of the terrific fight between the determined fisherman and his big catch.

Understand that Donner received a plant of rainbow last week, so fishing should be excellent. We know the Kokanee are still being caught, but with their soft mouth, it's the old story of netting some and losing several.

A nice four-pound Mackinaw was caught while trolling for Kokanee last weekend of Lake Shore Motel.

* * *

The needed rain has finally arrived to help the dry earth become less a fire hazard. Now the new green leaves of disciduous trees and shrubs will burst forth. Shouldn't have washed the car or windows so soon. The lake is full now.

A big group from the Donner-Truckee area attended the buffet dinner at Crystal Bay the Shriners put on last Saturday night. It was nice seeing Ben and Margarette Lobnow back from Earp, where they spent the winter.

An even bigger representation will be enjoying the Tahoe Forest Hospital Auxiliary dinner-dance there tonight.

* * *

Ivan Tofft, candidate for Supervisor of the 5th District of Nevada County spoke to the Tinker Belles Garden Club meeting at St. Claire's home Tuesday, about landscaping the hospital grounds.

AN OPEN LETTER TO THE PEOPLE OF THE FIFTH SUPERVISORIAL DISTRICT

Dear Friends:

During the years it has been my privilege to represent you on the Nevada County Board of Supervisors, I have always worked for the best interests of our district. I am satisfied to let the record of those years speak for itself. There are some of you who have arrived here during recent years and are therefore not familiar with the situation which we faced when I took office nor with the problems with which we are currently confronted. This letter is directed primarily to you.

At the time I assumed the duties of supervisor, there were no paved streets in the area, the main street of Truckee, then part of Highway 40, having a narrow strip of hardtop down the center with a dirt parking area extending to the sidewalk covered with debris and very unsightly, as well as being a mud and dust trap and never plowed during the winter months.

There was a small, four-room high school, no hospital, certainly no airport and very inadequate fire fighting equipment. Subdivisions were unheard of. Snow removal was a personal problem, with no equipment available of any kind. This area was truly the "forgotten land." Many businesses closed during winter because of inadequate facilities to attract patronage.

I am not attempting to take full credit for the many improvements which have come about during the years, but I call to your attention that on every project toward a better district, on local, county and state levels, I contributed largely in establishing and supporting improved conditions.

I have been criticised because there are too many dogs in the community, although at my insistence an ordinance was passed, and is now on the books, designed to correct this situation. I am not an enforcement officer or dog catcher.

I have been criticised because some of the sidewalks in the main business section are not up to higher standards, that the snow is not shoveled from them, and that at times even the streets are not thoroughly cleaned up. I am not responsible for the condition of the sidewalks, as common sense should dictate. The road department is charged with snow removal—not the supervisor, although I have obtained a large amount of good equipment for our district and have made every effort to see that it is used advantageously.

I have been charged with not purchasing lumber and other materials for the county locally. This falls entirely under the jurisdiction of the purchasing department and not in the province of the supervisor.

I am accused of faulty planning on the county building and not providing an entrance for women prisoners except through the men's quarters. This is entirely untrue. An entrance does exist for the women and juveniles, but that is beyond the point. I am not an architect or builder but for months and even years, I struggled against strong odds to get a county building to provide county services in our community. I insisted on changes in the building plans to get more space and believe the new building is a credit to this effort.

I have been criticised for things that have not even occurred, such as snow removal from Highway 40 at Donner Lake when the freeway is completed. This, I can assure, will be amply taken care of. I have been working and will continue to work to have old Highway 40 included in the state's scenic route system. Who else has taken more interest, even though it is not an obligation of your supervisor?

I seldom miss a meeting of the board, regardless of the weather, and have time after time invited local business people or civic organization heads or committee members to accompany me and press for favorable board action on local projects. With very rare exceptions, I have stood alone in presenting projects and urging their support by the board. I again invite anyone to accompany me to these meetings and learn first hand how our district is able to get its full share of county assistance and how opposition to our requests is met.

We have never failed to get our share of appropriations from the county when application was legally made for deserving projects, despite stories to the contrary.

This area is enjoying a healthy growth and attracting more and more people who, for the first time in the district's history are coming because of the facilities being provided—facilities which were far more adequate before I took office and which may well degenerate unless a capable, experienced supervisor continues to administer the duties demanded in the uphill fight to secure and maintain them. Remember, we have one, and only one, representative on the board.

There remains many things to be done. More streets and more roads, more businesses and more homes, more necessary facilities to handle the influx of expected newcomers will demand and only someone with the knowledge of the fast changing conditions can cope with these problems.

As I said before, I am satisfied to let the record of my incumbency speak for itself. I want to continue to be a part of the development of the district and I can assure you now that as long as I remain in office, it will be my aim to serve you to the best of my ability.

Incidentally, this letter and other promotional material in my campaign for reelection, are not "paid for by friends." I have rejected financial contribution as I do not care to be a supervisor for a few, but want to represent all the people of this district honestly and fairly, without exception.

I will appreciate your support at the election June 2.

Sincerely,

H. G. Loehr

Dr. Priddy is a veterinarian and a cattle buyer in Nevada and now adds a beautiful resort to his other interests.

Ed and Carmen Swanson and children, the previous owners and builders will be moving to Auburn shortly where Ed will accept a position.

Sorry to have you leave, Swansons, but welcome to Tahoe, Priddys.

She is also a member of the Nevada State Hairdressers at Stateline. Joan Calhoon is also at the salon although she may be remembered better as Joan Decker, which was her maiden name.

Jutta Kinitz is another of the charming girls who comes to Crstal Bay each week with Garry Tours. Jutta is now a San Francisco resident coming from Germany. She was a secretary in Bonn, Germany, when she decided to come to this country, via New York, Miami, New Orleans. Jutta also does modeling in San Francisco as well as being a Bustess. Hobbies are swimming, horseback, and traveling.

NORTH TAHOE BRIEFS

Kings Beach of Earl and Carry Gray.

Happy birthday to Barney Wilen of Kings Beach who observed his natal day on May 23 and to Bruce Keeland of Incline Village who shared the same birthdate.

Over 100 guests attended the Soroptimist Club fashion show and luncheon at the Crystal Bay Club last Tuesday. The clothes were from Reno and Mrs. Conrad Preiss of Reno was the commentator. This is Shirley's forte and she is no stranger here having commentated the Women's Club of North Tahoe's fashion show last July and doing so again this coming July 8.

Patty Reeves was fashion coordinator, and models were Mesdames Vernon Scheid, James Halley, William Tessler, Roy Bowers, Howard Farrell, Don Landeck, Larry LaBate and Roxanna Carlsen and Paula Brown of Reno.

Well, happy birthday to Fred Schultz of Tahoe Vista who had an occasion to celebrate on May 20.

Mr. and Mrs. Frances Kientz of Los Angeles were guests of Mr. and Mrs. Vincent Kientz at Kings Beach this past week. From here they went on to Spokane to see their son, Vincent, his uncle's namesake, graduate from Gonzaga University.

Louise Walter of Kings Beach visited her niece Mrs. Charles M. Giovonetti at Santa Rosa last week. Main reason for the visit was to see the Giovonetti's new baby boy, born April 16 and named Charles, Jr.

Jerry and Babe Pelezza of Capistrano Beach, former North Tahoe residents, are guests of Dick and Ruth Lavery at Agate Bay.

Bethel Van Tassel and son, Pieter were dinner guests of Carl and Mary Dyer at Kings Beach last Wednesday evening. What discussions! Antiques, relatives, old friends, old times, and old families—who came to Placer County in the days of the '40's. Mary's family was the French family.

Carl and Mary went to Manzanita Cemetery with Alta Black and children, Mary Jane and Jimmy, to meet the rest of the family, Mary's sister, Dorothy Hall of Oakland, and other members of the family

Search your ballot. In the lower right hand corner, under MEASURES, you will find that Sierra College trustees are proposing a 20 cent override tax for building purposes only for a 10 year period.

THIS ISSUE NEEDS YOUR
YES
VOTE!

The college needs the buildings for the 1500 daytime students who will be jamming into the college starting this fall.

Those students are your children and your neighbors' children. They deserve and need college education in today's competitive, automated business and industrial world to protect them against unemployment and to insure their sound futures.

The tax funds can be used ONLY for building purposes, not for operational costs.

No one has denied the need for the facilities. In the unsuccessful bond issue this spring 66.41 per cent of the voters (less than one-half of one per cent too few) voted for the issue. This time a majority of voters MUST vote Yes to insure space in your local college for your children in the years ahead.

Sierra College is an EXCELLENT COLLEGE

1—The University of California annual report on transfer students ranked Sierra College's transfer students as having the HIGHEST GRADE AVERAGE of any JC transfer group in the state.

2—The official accreditation team last week gave the college the MAXIMUM five-year accreditation and gave the college special commendation for its fine programs and excellent staff. This accreditation group is the same one which accredits all Western colleges.

3—The State of Califronia has in its treasury now $194,000 allocated to Sierra College for building purposes when the local district can match the amount with $590,000 for building purposes. The state bond monies are paid by you and will be lost unless used in the next two years.

4—The tax override issue will actually save taxpayers $1 million in interest costs, although building funds will become available only a portion at a time. Only very large districts can afford this "pay as you grow" plan.

5—College trustees have indicated that the first major buildings to be constructed when the override is passed will be an engineering building for badly needed classroom space, additional science building space, an industrial technology building and library alteration-administration facilities for more library space.

We pay a sizeable percentage of the TAXES in the 5th District, and feel that we, as groups and organized associations, should receive our just amount of representation from our supervisor.

From experience, we have NOT received the help and recognition we justly deserve, from our supervisor. There have been many instances, where the whole area would benefit from our improvements, such as—drainage and road improvement as well as sewer systems.

THEREFORE—We want to join the several other organizations, who have placed their confidence in Ivan J. Tofft, Candidate for Supervisor, whom we feel will see ALL TAXPAYERS in the Fifth District will get just REPRESENTATION and ATTENTION.

Area Ranks High As Skiing Center

Favorable snow conditions made for the most successful skiing season ever in California's national forests, Regional Forester Charles A. Connaughton has announced.

A total of 1,183,100 visitor days were recorded on the 40 developed ski areas in the national forests in California during the 1963-64 ski season. Connaughton said this was more than double that of the previous season. Snow fell early last fall and periodic storms kept slopes well supplied with snow all season long.

The Mammoth ski area north of Bishop in the Inyo National Forest led all areas with 280,000 visitors. Squaw Valley and Alpine Meadows, both in the Tahoe National Forest, followed with 145,000 and 101,800 respectively, Connaughton said.

Connaughton emphasized that the statistics given are for skiing only and do not include other forms of snow play which continue to outsrip the use of developed ski slopes in popularity.

AIRPORTS MUST FILE FOR FEDERAL FUNDS

The federal aviation agency has advised Congressman Harold T. Johnson that July 3 is the deadline for public agencies owning and operating airports to submit requests for federal assistance under the anticipated airport program in the fiscal 1965 year commencing next July 1.

To be considered eligible for financial assistance, airports must first be considered in the national airport plan. These airports include the Truckee Tahoe at Truckee, Loma Rica at Grass Valley and Lake Tahoe at Tahoe Valley.

The federal government provides up to half the costs of projects on public owned airports.

REGISTRATION OPEN SOON FOR SUMMER

All adults, high school graduates and returning Sierra College students are eligible to enroll for a maximum of six units college work during the six week session. More than 35 courses will be offered, with enrollment expected to near 400.

Most classes will be held during the mornings at the Rocklin campus.

IT'S YOUR TURN TO SENTENCE ME

Dear Friends,

Election time is here again! I take this means of contacting the voters in this district.

This marks my 14th year in the Truckee Judicial District Court and each has been a year of progress, even though there was little to work with in the beginning. The fine cooperation of the Nevada County Supervisors and all other departments helped me establish a modern, progressive office that is now rated one of the most efficient in Northern California.

Lately we have been hearing much about operating a court without discrimination; but the dictionary defines discrimination and judging as similar in meaning. I have never felt that all crimes of a like nature are alike in fact, and neither is the same punishment applicable for each case. I would like to be known as a discriminating judge.

The use of the court for civil actions has multiplied in the past few years. The small claims court is proving to be useful to all in need of clearing financial problems on a local, confidential basis.

Your continued support will enable me to carry on this program.

Let us keep our June 2nd date — when you will have your opportunity to sentence me — to another term.

I thank you,

SLOW DRIVERS GET WARNING FROM CHP

Too many motorists still are driving in the fast lanes of multi-lane highways and freeways at speeds slower than the normal flow of traffic, California Highway Patrol Commissioner Bradford M. Crittenden said.

"The situation is better than it was a year ago," he added, "but there is still room for improvement. We plan to continue our combined program of enforcement and education as long as necessary to gain voluntary compliance with the law."

Crittenden noted that during 1963,, CHP officers cited 11,054 violators who failed to drive in the right hand lane when proceeding at a speed less than the normal speed of traffic at the time.

"Slow-moving drivers in fast lanes contribute heavily to rear-end accidents, the most prevalent kind of traffic mishaps on freeways. In addition, they create other accident-causing situations when impeded motorists get impatient and make unsafe lane changes," he concluded.

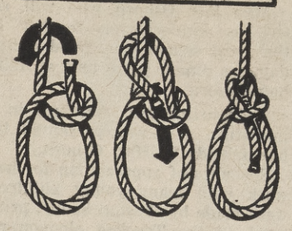
Boating Tips...



Making your boat fast to a dock shouldn't cause knotty problems, if you know the most versatile knot of all—the bowline. Its chief advantages, say the Mercury boating authorities, are that it's easy to tie, won't slip and can be loosened easily. Here's how to fashion one: make a loop in the "standing part" of the line as shown. Pass the end up through the loop, around the standing part, then return it down through the loop. Tighten by pulling on the free end—loosen it by tugging at the rope where it circles the standing part of the line. It's the best knot devised for any situation where you need a temporary loop in the end of a line.

Sunday—a day to be remembered. One of the perfect days at Lake Tahoe, sunny, warm, clear and beautiful. With wheelbarrow, rake and ambition we combed the beach until we were sunburned. In the afternoon, off to visit friends, Paul and Isabelle Adamov who reside at the Whittell estate on the east shore of Lake Tahoe. Paul escorted us around the grounds which include the mansion and six guest houses built of stone and set in 200 acres of one of the most beautiful areas on the Lake. "Tahoe" a ten weeks old German shepherd and labrador pup acompanied us on the trip.

The buildings made of stone are further enhanced by the rock masonry work of paths interwoven around the natural rock, waterfalls, pools a beach tea house, set atop the rocks on the lake's edge, a three story tower, with all the paths lighted by wrought iron standing lights, stables where the horses were kept, elephant quarters, however, no animals are kept there now—all kept up in its natural beauty make this a truly fairyland.

The boat house is another ideally located and unique building. At present it houses the "Thunderbird" which is owned by Bill Harrah of Harrah's Club. The boat is in the process of being equipped with two new engines equivalent to hydroplane engines. The original engines are considered masterpieces of workmanship and were installed at the time the boat was custom built for the Whittells. Harrah is moving these engines to his museum.

Needless to say Pieter and Mark Holstrom were tired boys when the tour was completed having climbed up, down, into and under all these interesting points. We are truly thankful to Paul for letting us enjoy an afternoon in this magnificent spot and too, for letting us peek at the "Tunderbird." We'd like to stow away on it one of these days for a cruise around the lake but what with electric gates, eagle eyes, and a difficult approach—we best forget it.

Having enjoyed an afternoon of the building of the past, we were more than delighted to accept the hospitality of Jack and Darlene Knorpp and children, Jon, Scott and Tami, at Crystal Shores.

It is always more interesting to stay at a place, enjoy using instead of just seeing, the accommodations. These new townhouses are thoroughly livable, comfortable and colorful. The view is unsurpassed from any one of them, since they face and are right on the lake. The grounds are being landscaped by the Japanese architect, Harold Sato, who is at Crysstay Shores this week. He has already designed one waterfall and is planning more where the natural flow runs from the mountains to the lake.

Also visiting Crystal Shores this week are architects, Donald Sandy of San Francisco and Sherrell Broudy of Santa Barbara.

The Warner Odenthals of Orinda and Crystal Shores are at present vacationing in the Bahamas. Children, Carolyn, Debbi and Trish remain home with relatives in Orinda during their absence.

This is also a fun spot for grown-ups as well as children. Pieter took his bicycle along to ride with Jon and upon arrival our host, Jack, met us on his bicycle taking his evening exercise. It wasn't a bicycle built for two, but nevertheless a seat on the bar and a bicycle ride around the drive with the children made for fun.

Our thanks to Jack and Darlene for a wonderful time at their beautiful Crystal Shores Townhouse.
